Prof. V. RAMALINGASWAMI

M. D., D.Sc., F.R.C.P. (Lond.)

DIRECTOR

Dear Prof. Lederberg,

It was a privilege for me to have met you in Geneva and to have listened to your brilliant comments. I am so sorry that I had to leave to catch my plane before the meeting concluded and was unable to take leave of you personally.

It would give me and my colleagues at the Institute immense pleasure if you are able, sometime in the near future, to come here and spend sometime with us. We have an undergraduate medical school, a fairly large postgraduate training programme and the hospital. Attached to our hospital are community health stations in the rural and urban areas which provide a setting for the training of our physicians and also for research into community health problems. I know how busy you are but we do hope that you can give us this time.

With every good wish,

Yours sincerely,

V. Ramalingaswami
